

MARE GROUP INFRASTRUCTURE & BUILDING: OVER €4 MILLION OF NEW 2026 ORDERS FOR LA SIA

38% increase compared to the same period of 2025

Salerno, 27 February 2026

Mare Group S.p.A. (ticker **MARE.MI**), an engineering company listed on Euronext Growth Milan and active in Italy and abroad in innovation through enabling technologies ("**Mare Group**", the "**Company**"), announces that, since the beginning of 2026, in the Infrastructure & Building sector the La SIA Division has secured new orders totaling €4.25 million, marking an increase of 38% compared to the same period of 2025.

The figure is part of the order acceleration trend communicated by the Company on 16 February 2026 and provides further evidence, within the Infrastructure & Building perimeter, of the acceleration enabled by the Group's increased scale following the aggregation.

Securing an order intake of this size in the first two months of the year points to greater regularity in operating flows and an ability to generate value consistently throughout the financial year.

The new orders, mainly related to strategic national infrastructure and major institutional clients, include high value-added technological and specialist contracts spanning from engineering design to structural assessments.

The activities under the orders, with a duration ranging between one and three years, are already in the start-up phase. The related invoicing expected in the current financial year is estimated at at least 25% of the total value of the new orders.

Maurizio Ciardi, Board Member of Mare Group and former Chief Executive Officer of La SIA, stated: "*The orders recorded since the beginning of the year clearly show the effectiveness of Mare Group's growth model, which La SIA shared last year by embracing the OPAS and then the merger. Today we are part of a more structured and larger-scale Group, with organisational and execution capabilities greater than those La SIA could offer, confirming the vision that guided the aggregation. We have increased scale and solidity to support faster and more continuous growth in acquiring new orders.*"

Mare Group

With a history dating back to 2001, Mare Group is an Italian High-Tech Engineering Hub active in strategic sectors such as Aerospace and Defense, Industry, Critical Infrastructure, and the Twin Transition, with over 2,000 customers. Listed on Euronext Growth Milan, the Group operates through an asset-light model based on proprietary platforms, thanks to over 700 people, 32 locations across 5 countries, and the experience of more than 30 research projects completed with Italian and foreign Universities. The 19 acquisitions and subsequent integrations carried out since 2019 make Mare Group one of the main innovation aggregators in Italy and Europe.
