

MARE GROUP AT THE FARNBOROUGH INTERNATIONAL AIRSHOW WITH GROWING AEROSPACE & DEFENCE ACTIVITIES

Salerno, 22 July 2026

Mare Group S.p.A. (ticker **MARE.MI**), an engineering company listed on Euronext Growth Milan and active in Italy and abroad in innovation through enabling technologies ("**Mare Group**" or the "**Company**"), at the **Farnborough International Airshow 2026** (Farnborough, UK, 20–24 July 2026), presents to the international aerospace community its activities in the **Aerospace & Defence** sector.

At a time when technological innovation makes autonomous systems increasingly relevant, Mare Group integrates design, simulation, prototyping, industrialisation and testing of complex systems and subsystems, with applications in major aeronautical, space and defence programmes. A wealth of expertise further strengthened by the Group's industrial growth and by the development of dual use technologies.

Among the activities presented at Farnborough is the European CRYOSTAR programme, developed within the Clean Aviation Joint Undertaking and dedicated to next-generation commercial aircraft. Mare Group contributes with design, simulation and validation activities on structural systems and containment devices intended to preserve the integrity of the tank under *mission-critical* operating conditions.

Participation in the Farnborough Airshow is part of a phase of expansion of Mare Group's Aerospace & Defence activities, driven by the growth in orders, the expansion of industrial capacity and the integration of specialist skills along the supply chain. The Group thus brings to the sector's leading international arena a model that combines advanced engineering, applied research and manufacturing and testing capabilities.

This press release is available on the Company's website <https://www.maregroup.it/investor-relations> and on the authorised information dissemination and storage system "1INFO", "1MARKET" section available at <https://www.1info.it/>.

Mare Group

With a history that began in 2001, Mare Group is a High-Technology Engineering company operating in strategic sectors such as Aerospace and Defence, Industry and Transport, Critical Infrastructure and Construction, with more than 2,000 clients and a subsidiary dedicated to SMEs. Listed on Euronext Growth Milan, the company operates as an industrial platform built on proprietary technologies and platforms, thanks to more than 700 people, 35 offices in 5 countries and the experience of more than 30 research projects completed with Italian and international universities. The 19 acquisitions and subsequent integrations carried out since 2019 make Mare Group one of the leading independent players in innovative engineering, in Italy and Europe.
